THE NEURONAL MICROENVIRONMENT^a

Editor

HELEN F. CSERR

CONTENTS

Preface. <i>By HELEN F. CSERR and CHARLES NICHOLSON</i>	ix
---	----

Part I. Introductory Session

HELEN F. CSERR, *Chair*

The Neuronal Microenvironment: A Comparative View. <i>By HELEN F. CSERR and MAGNUS BUNDGAARD.....</i>	1
Pathways across the Vertebrate Blood-Brain Barrier: Morphological Viewpoints. <i>By MAGNUS BUNDGAARD.....</i>	7
The Blood-Brain Interface in Invertebrates. <i>By N. JOAN ABBOTT, NANCY J. LANE, and M. BUNDGAARD</i>	20

Part II. Dynamics of the Microenvironment

ANTHONY GARDNER-MEDWIN and CHARLES NICHOLSON, *Chair*

Introductory Remarks: Dynamics of the Neuronal Microenvironment. <i>By CHARLES NICHOLSON.....</i>	43
Structure and Localization of Nervous Tissue Proteoglycans. <i>By R. U. MARGOLIS, D. A. AQUINO, M. M. KLINGER, J. A. RIPELLINO, and R. K. MARGOLIS.....</i>	46
The Migration of Substances in the Neuronal Microenvironment. <i>By CHARLES NICHOLSON and MARGARET E. RICE</i>	55
Dynamic Variations of the Brain Cell Microenvironment in Relation to Neuronal Hyperactivity. <i>By I. DIETZEL and U. HEINEMANN</i>	72
Brain Extracellular Space: Developmental Studies in Rat Optic Nerve. <i>By BRUCE R. RANSOM, WALTER G. CARLINI, and BARRY W. CONNORS.....</i>	87

^aThis volume is the result of a workshop entitled The Neuronal Microenvironment, held at the Mount Desert Island Biological Laboratory, Salsbury Cove, Maine on September 4-6, 1985. The workshop was cosponsored by the New York Academy of Sciences and the Mount Desert Island Biological Laboratory.

Recent Developments of <i>in Vivo</i> Voltammetry: Applications to Studies of Chemical Dynamics in the Neuronal Microenvironment. <i>By B. MOGHADDAM and R. N. ADAMS</i>	106
Impedance Measurements as Estimators of the Properties of the Extracellular Space. <i>By R. S. EISENBERG</i>	116
Convection of Cerebral Interstitial Fluid and Its Role in Brain Volume Regulation. <i>By HELEN F. CSERR, MICHAEL DEPASQUALE, CLIFFORD S. PATLAK, and ROBERT G. L. PULLEN</i>	123
General Discussion of the Neuronal Microenvironment. CHARLES NICHOLSON, <i>Chair</i>	135

Part III. Blood-Brain Barrier Exchange

HUGH DAVSON and MICHAEL W. B. BRADBURY, *Chair*

Introductory Remarks: The Developing Experimental Approach to the Idea of a Blood-Brain Barrier. <i>By M. W. B. BRADBURY</i>	137
Rate of Uptake of Lead-203 into Brain and Other Soft Tissues of the Rat at Constant Radiotracer Levels in Plasma. <i>By M. W. B. BRADBURY and R. DEANE</i>	142
The Influence of Transport and Metabolism on Brain Glucose Content. <i>By VINCENT J. CUNNINGHAM</i>	161
The Blood-Brain Barrier as a Tight Epithelium: Where Is Information Lacking? <i>By CHRISTIAN CRONE</i>	174
Kinetics of Amino Acid Transport at the Blood-Brain Barrier Studied Using an <i>in Situ</i> Brain Perfusion Technique. <i>By QUENTIN R. SMITH and YOSHIO TAKASATO</i>	186
<i>In Vitro</i> Studies of the Blood-Brain Barrier Using Isolated Brain Capillaries and Cultured Endothelial Cells. <i>By GARY W. GOLDSTEIN, A. LORRIS BETZ, PHILLIP D. BOWMAN, and KATERINA DOROVINI-ZIS</i>	202
The Choroid Plexus as a Route from Blood to Brain. <i>By ERNEST M. WRIGHT and YOSHITAKA SAITO</i>	214
Nucleoside and Vitamin Homeostasis in the Mammalian Central Nervous System. <i>By REYNOLD SPECTOR</i>	221
Mechanisms of Neuropeptide Interaction with the Blood-Brain Barrier. <i>By WILLIAM M. PARTRIDGE</i>	231
Tight-Junctional Modification as the Basis of Osmotic Opening of the Blood-Brain Barrier. <i>By STANLEY I. RAPOPORT and PETER J. ROBINSON</i>	250
General Discussion on Blood-Brain Barrier Exchange. MICHAEL W. B. BRADBURY, <i>Chair</i>	268

Part IV. Glial-Interstitial Fluid Exchange
RICHARD K. ORKAND, Chair

Introductory Remarks: Glial-Interstitial Fluid Exchange. By RICHARD K. ORKAND	269
Regional Specialization of the Membrane of Retinal Glial Cells and Its Importance to K^+ Spatial Buffering. By ERIC A. NEWMAN	273
A New Framework for Assessment of Potassium Buffering Mechanisms. By A. R. GARDNER-MEDWIN	287
Free Concentrations of Na, K, and Cl in the Retina of the Honeybee Drone: Stimulus-Induced Redistribution and Homeostasis. By JONATHAN A. COLES, RICHARD K. ORKAND, CAROL L. YAMATE, and MARCOS TSACOPOULOS	303
Potassium Transport in Astrocytes and Neurons in Primary Cultures. By LEIF HERTZ.....	318
Anion Transport in Astrocytes. By H. K. KIMELBERG, C. L. BOWMAN, and H. HIRATA	334
General Discussion on Glial-Interstitial Fluid Exchange. RICHARD K. ORKAND, Chair.....	354

Part V. Poster Papers

Capillaries of the Pituitary Neural Lobe: A Contrast to Brain. By PAUL M. GROSS and JOSEPH FENSTERMACHER.....	357
Fenestration of Cerebral Microvessels Induced by PC12 Cells Grafted to the Brain of Rats. By C. B. JAEGER.....	361
Determination of Resistivity and Transcellular Current Flow in Frog Retina. By CHESTER J. KARWOSKI, LUIS M. PROENZA, and DONALD A. FRAMBACH	365
Prevention of Hyponatremia in Experimental Schwartz-Bartter Syndrome with the Vasopressin Antagonist SK&F 101926. By GEORGE DYTOK and LEWIS B. KINTER.....	369
Hydrogen Ions and Ischemic Brain Damage. By RICHARD P. KRAIG, CAROL PETTITO, FRED PLUM, and WILLIAM PULSINELLI.....	372
Stimulus-Evoked Changes in Extracellular Calcium in Optic Tectum of the Goldfish: Possible Role in Neuroplasticity. By M. E. MORRIS, N. ROPERT, and V. E. SHASHOUA	375
Strong Anions in Cerebrospinal Fluid Bicarbonate Regulation. By EUGENE E. NATTIE.....	378
Serotonin Migration in the Neuronal Microenvironment. By M. E. RICE and C. NICHOLSON	381

Effect of Vasopressin on Ependymal and Cerebral Capillary Permeability to Tritiated Water in Cat. <i>By G. A. ROSENBERG, W. T. KYNER, E. ESTRADA, and C. S. PATLAK</i>	383
Barium-Sensitive Potassium Channels in Astrocytes: Properties and Contribution to the Membrane Input Conductance. <i>By WOLFGANG WALZ</i>	386
The Na-K ATPase of the Blood-Brain Barrier: A Microelectrode Study. <i>By N. JOAN ABBOTT, A. M. BUTT, and W. WALLIS</i>	390
Index of Contributors	393

Financial assistance was received from:

- DEPARTMENT OF THE ARMY AND U. S. ARMY MEDICAL
RESEARCH AND DEVELOPMENT COMMAND
